GROWTH EQUITY FOR BUSINESS SERVICES

FRONTIER SAAS INVESTMENTS

Lanyon is the leading provider of content and spend management solutions to the travel, transportation and hospitality industries.

SocialSolutions

Social Solutions delivers on-demand performance management software (SaaS) to the human services non-profit sector. The company focuses on measuring efforts to outcome (ETO) which provides these organizations with a clear picture of the efforts having the greatest impact on the social issues they address.

Daxko provides on-demand software (SaaS) and solutions to enable YMCAs and other member-based organizations to operate more efficiently, grow healthier organizations, and serve their communities more effectively.

Frontier Capital was founded in 1999 as a private equity firm focused on providing capital and support to technology enabled business services companies. We invest in high growth companies with a proven solution in the marketplace that can benefit from capital to accelerate growth, fund acquisitions, or generate shareholder liquidity.

Our track record includes a number of successful investments in Software as a Service (SaaS) companies serving a variety of different industries. Frontier has developed a comprehensive understanding of the opportunities and challenges facing SaaS companies and a reputation for helping build significant value.

Anodyne provides business intelligence and analytics for healthcare revenue cycle management with approximately 13,000 medical providers under contract. The Company's unique, easy-to-use, on-demand software (SaaS) revolutionizes access to revenue cycle information from practice management systems that was once thought difficult, or even impossible, to obtain.

Acquired by athenahealth, Inc. (ATHN)

Digital Envoy delivers geotargeting and other IP attributes on internet users, which are leveraged by the world's largest ad networks, publishers, emerging technology companies, e-tailers and analytics platforms. The Company's solutions also include a comprehensive online fraud detection and prevention solution that helps financial services organizations and enterprises of all sizes reduce online fraud.

Acquired by Landmark Communications

Accipiter provides on-demand ad-serving software (SaaS) that enables the unified management of digital marketing campaigns across display banners, rich media, search, video and websites. The Company's solutions for online publishers maximize advertising revenue across all available and developing digital media platforms.

Acquired by aQuantive (AQNT), now Microsoft (MSFT)
